Target: Systems & Configuration Management (Aerospace)

Summary: Aerospace Engineering (B.Sc.) candidate (expected 09–10/2026) with 2 years of experience in configuration management and change processes in a high-rigor Airbus program (Eurodrone), including customer-side requirements and UAT for a PLM rollout (3DEXPERIENCE) and user training/hypercare.

Experience

Consultant (embedded at Airbus) — Eurodrone program

Aug 2023 – Sep 2025

Getafe (Madrid)

- Supported configuration management and change process activities (documentation readiness, traceability, follow-up).
- Defined customer-side needs (dossiers, flows, business rules) and acceptance criteria for an internal PLM rollout (3DEXPERIENCE).
- Performed UAT/functional validation, reported issues and feedback via Jira/Confluence.
- Primary UAT stakeholders for One Platform were Configuration Management and Systems Engineering.
- Delivered enablement at scale: ~32 sessions over 4 months; trained ~150 users; provided hypercare post go-live.

Formula Student — University Team

Sep 2020 – Dec 2023

- CAD/Configuration Lead: coordinated assemblies, design reviews, drawings, and structured product organization.
- Vehicle Dynamics team member: conceptual design of driverless brake and steering actuators (force sizing, system architecture, supplier catalog research), brake redesign, manufacturing, and track/testing support.

Data Intern (Airbus Commercial) — Skywise (Palantir suite)

Feb 2023 – Aug 2023

- Built ETL pipelines (SQL/Python) in Skywise (Palantir suite) to clean/transform legacy configuration and product-structure data.
- Delivered a product-structure/BOM lookup dashboard and a lightweight in-platform query interface in Skywise.

Education

B.Sc. Aerospace Engineering (UPM) — Propulsion track

Expected Sep–Oct 2026

Additional training: LSE Summer Intensive (1 month) — Introduction to Data Science (R/SQL)

Skills

Configuration Management (CM); Change Control; Requirements; UAT/Validation; PLM (3DEXPERIENCE); Jira/Confluence; Training/Enablement; Python; SQL; Git; Linux

Languages

Spanish (native); English (C2 – Cambridge Proficiency); French (~B1)

Selected Extras

High-performance hockey: national team selections; leadership support role.
